

## INFORMATION FOR AUTHORS

### Originality and responsibility:

*Altarul Reîntregirii* is scientific journal published three times a year, containing studies and materials from the humanities field: *religion, theology, history, sociology, philology* etc. It is advisable that the articles have not been previously published elsewhere; the studies which demonstrate a high degree of originality have priority at publication. All the responsibility for the opinions or critical positions belongs to the authors and do not represent the official position of Editorial Committee, of the Theology Faculty or of the Archbishopric of Alba-Iulia.

### Format and scholarly content:

The papers must be typed using Times New Roman font, 12 pts. for the main text, (with diacritics for Romanian texts) and of 10 pts. for footnotes. The papers with a title longest than 40 characters must contain a short version of it in order to be used as *header* in the printed shape.

All papers must be accompanied by an English abstract no longer then 300 words and 5-8 keywords. We strongly recommend that *the studies* should be limited to no more than 10.000 words (c. 70.000 characters, including tables, footnotes/endnotes and references list) and the *scientific articles* at no more 3.000 words (including footnotes and references list).

The studies containing non latin or ancient words (as Greek, Hebrew, Syriac or Slavonic) must be accompanied by fonts used.

We advise that the articles must be accompanied by a brief presentation of the author, his academic position and

affiliation, the research interests, the title of the last published or of a representative study and a contact address (preferable *e-mail*).

## **Reviewing procedure**

All studies are *peer-reviewed*. The process can take 1-3 months. The purpose of this procedure is to help authors to improve their work after some constructive comments, looking for a better scientific background, novelties, clear wording, correct citation of bibliographical references etc. After an internal review process an article is forwarded (anonymously) to one or more members of our independent scientific board, someone who is especially qualified to assess a given article. The reviews of at least two specialists will be sent to the author. Accepted papers will be corrected according to the suggestions of the specialists. We encourage the dialog between the board and the authors until materials arrive to a final shape.

After printing, the author has the right to receive one copy of the journal issue which contains his/hers study.
